Log Bowls combine the incomparable beauty of trees in their natural state with a high gloss vibrant finish. Each bowl is handmade using only locally reclaimed trees of all varieties (fallen or cut down due to infrastructure, re-landscaping, draughts, or stormy weather). The trees are hand selected, gathered, turned and finished by loyal loot collective and local crafts people. Log Bowls come in a large variety of colors and are completed by hand with a water-based, furniture grade finish.

Materials: log cut offs, acrylic paint, water based gloss finish

Dimensions: sizes vary between 51 and 267mm in diameter, heights vary

Design: Doha Chebib

Production time: 6-8 weeks.
